# OFFICE STATIONERY

## Office Stationery

**Office stationery supplies** are crucial for various reasons, and they play a significant role in the functioning of a workplace. Here are some key reasons why office stationery supplies are important:

- 1.Communication:** Office stationery supplies, such as pens, paper, and notepads, are essential for written communication. They allow employees to take notes during meetings, write memos, send letters, and leave messages for colleagues.
- 2.Organization:** Folders, binders, and file organizers help keep important documents and paperwork organized. An efficient filing system ensures easy access to information, reduces clutter, and enhances productivity.
- 3.Professionalism:** High-quality office stationery supplies, such as branded letterheads, business cards, and envelopes, contribute to a professional image for the company. They create a positive impression on clients, partners, and customers.

## Choosing the right Self-Retracting Lifeline (SRL).

DBI-SALA® and Protecta® are fall protection brands leading the development of innovative, reliable and versatile SRLs.

Our innovations include retractable lifelines, sealed SRLs, dual mode rescue SRLs, 3-way SRL with built in retrieval and fall impact indicator. These important safety innovations have now been widely adopted and appreciated by customers across all sectors of industry.

Whether your application requires single or twin-leg configurations, mounting to an overhead anchor or for connection directly to a harness, there are numerous models to choose from to suit almost any application.

Considerations when choosing your SRL:

### Housing Construction

Thermoplastic - When lightweight is key  
Aluminium - When ultimate durability is required.

### Lifeline Material

Galvanised cable, stainless steel cable or web / synthetic lifeline material for varying environments.

### Sealed Design

For harsh/corrosive environments like Oil & Gas applications.

### Retrieval

Ideal for confined space rescue / retrieval applications for easy implementation of rescue plan solutions.

### RSQ™ Dual Mode Design

Built-in rescue allows user to be lowered after a fall arrest either automatically or manually.

### 3M™ DBI-SALA®

**FAST-Line™ Cable**  
Allows user to replace lifeline assembly in the field (available for 3M™ DBI-SALA® Sealed-Blok™ SRL only).

### Harness Mount

Direct connection takes the hassle out of fall protection.

### Sharp Edge Compliant

Specialised lifeline and external shock for leading edge, horizontal use, meeting the latest VG11 sharp edge requirements.
